Conditions:

This contract covers each purchase of a Frozen Semen breeding for 3 breeding doses of Frozen Semen for this stallion. Orders less than 3 doses do not carry the backup guarantee. Each dose will contain the correct amount of straws required for each breeding dose. This amount is determined in Holland after each collection. The number of straws required is provided to you when your Frozen Semen is shipped to you.

The frozen semen has been tested in Germany and is EVA negative.

If you would like to use a Credit Card or Paypal (which uses credit cards) there is a \$20 fee/dose to cover our credit card expenses.

The Frozen Semen will be shipped in a Liquid Nitrogen "Dry Shipper" at the Buyers shipping expense. The use of the Dry Shipper is free. The shipment should be planned at a minimum of 2 weeks prior to when you plan to breed your mare, so that a Dry Shipper can be made available and charged with liquid nitrogen. The Frozen Semen will be shipped as soon as you have decided on a stallion, purchased the Frozen Semen and a Dry Shipper is available. You should not wait to ship the semen, as a Dry Shipper may not be available. The earlier you request the shipment of the Frozen Semen, the less chance there will be a problem making a Dry Shipper available. Customers may provide their own Dry Shipper.

No Frozen Semen will be shipped until all Fedex shipping fees are paid for or arranged with a credit card or Fedex number. You will need to arrange for liquid nitrogen storage for your semen when it arrives. If you do not have a Liquid Nitrogen Storage Tank of your own, often your vet will have one or know of one. You should ask if they charge you for storage of the semen. You must transfer the semen immediately from the Dry Shipper into a Liquid Nitrogen Storage Tank and return the dry shipper back to Majestic Gaits per the instructions provided with the Dry Shipper. We need the Dry Shipper returned promptly. \$25/day will be charged for Dry Shippers that have not arrived at Majestic Gaits within 7 days of shipping. Failure to transfer the semen within 24 hours of receipt will void this contract and may have jeopardized the integrity and quality of the frozen semen. Majestic Gaits is not responsible for the frozen semen once it has been shipped. Insurance is required on each shipment for the container and the frozen semen with Federal Express. Once the semen arrives, it should be checked promptly. The tank should be frosty when opening it. A report of damaged shipment must be filed by the Buyer within 24 hours or insurance is not valid. It is the responsibility of the Buyer to file this report.

Majestic Gaits will call the person who will be receiving the semen to insure a Liquid Nitrogen storage facility is available and ready for the Frozen Semen and that someone will be there to receive the Frozen Semen when it arrives. The shipment will be insured with Federal Express for the price of the Frozen Semen Stud Fee and the container. The shipment is sealed with a plastic tie wrap. The Buyer should insure that this tie wrap has not been broken and that the Dry Shipper is frosty when first opened to transfer the Frozen Semen. The Frozen Semen should not be held out of the tank for more than 8 seconds or the Frozen Semen could be damaged. If the shipment did not arrive sealed and cold, a claim should be made by the Buyer to Federal Express promptly. Majestic Gaits is not responsible for Frozen Semen that has been mishandled.

If you buy more than one breeding dose, You will receive all breeding doses in 1 shipment. This frozen semen is yours to use as you like. If you get your mare pregnant with 1 breeding dose, you can use the remaining dose(s) on another mare. You can sell or share it with someone else. Majestic Gaits does appreciate hearing about how it worked for you and how the foals turned out. That will void this contract.

We recommend that you breed the frozen semen within 4-6 hours post ovulation. The closer you get to ovulation, the better your chance is to getting your mare in foal. Post ovulation ensures that you do not have to use more than 1 dose per heat cycle. Majestic Gaits suggest that your veterinarian do a breeding soundness exam on your mare before you decide to breed your mare. A culture and biopsy should be done prior to breeding to insure that the mare is clean and is in good condition for breeding. This will save you money by taking these tests and ultimately reduce your veterinarian and semen costs. Your breeding veterinarian can advise you the best.
