Conditions:

1. This contract covers the purchase of a VDL Stud fresh semen breeding. One dose imported from the NL will be for one insemination. Stallions and doses are limited. One dose will be shipped in a disposable box, 2 doses if enough was imported. Each dose is 25ml and will be extended with Beyond extender.

6. A mare may be substituted. Majestic Gaits should be informed immediately so the breeding report can be accurate.
7. Majestic Gaits should be informed once the foal is born and provide any information needed for registration.
8. Majestic Gaits suggest that your veterinarian do a breeding soundness exam on your mare before you decide to breed your mare. A culture and/or biopsy should be done on barren or non maiden mares prior to breeding to insure that the mare is clean and is in good condition for breeding. This will save you money by taking these tests and ultimately reduce your veterinarian and breeding costs. Your breeding veterinarian can advise you the best.
